Detailed Information

1. Charges.

(a) Subscriber agrees to pay for his/her subscription to the Nortex Service and all use of Subscriber's Account, including applicable charges for installation and all applicable local, state and federal fees and taxes. Charges for the Nortex Service are set forth on a separate price list of which Subscriber hereby acknowledges receipt. Both the amounts and the types (e.g., periodic, time-based, use-based) of charges for the Nortex Service are subject to change by Nortex in the future. Recurring monthly Nortex charges will be billed monthly in advance.

(b) Depending on the Nortex Service and Equipment payment option you chose, Nortex Service plans may require a 24 month service commitment. After the expiration of your minimum service commitment, your subscription to the Nortex Service will continue on a month to month basis. In the event you terminate the Nortex Service prior to the expiration of your minimum service commitment, you will owe and you will be charged termination fees in accordance with the following:

- (i) If you cancel after ordering service but before installation, you will not be charged;
- (ii) If you paid for your installation and you cancel after installation, you will be charged a prorated amount due for monthly service plus a early termination fee of \$100.00.
- (iii) If you fail to return Nortex equipment, you will be charged for the replacement value of that equipment (up to \$600).

(iv) If you are paying for your Equipment over the term of your minimum service commitment and you cancel after installation, you will be charged a termination fee plus any remaining amounts due based on installation costs

(c) An administrative late charge may be charged on accounts for Nortex that are past due. Payment for the Nortex Service must be received by Nortex on or before the due date stated on the monthly bill. Failure to deliver payment by the due date is a breach of this Agreement. Subscriber agrees that each individual non-payment causes Nortex to suffer damages in an amount that is difficult to ascertain with certainty. Nortex has made a reasonable estimate to determine the damages caused by late payments generally and has used this estimate to set a late fee amount as liquidated damages. The current late fee is listed in the list of charges or can be provided upon request. Nortex reserves the right to change the late fee amount at any time in the future upon notice to Subscriber of the new amount.

(d) If Subscriber discontinues the Nortex Service or the Nortex Service is discontinued for any reason including non-payment, Subscriber may be required, in addition to payment of all outstanding balances, to pay a reconnect charge before reconnection of \$15.00.
